Allowable Subject Matter

1. Claims 23 and 24 are allowed.
2. The following is an examiner's statement of reasons for allowance: In addition to applicant's remarks filed 10/06/2005, the primary reasons for allowance is the inclusion of the following limitations as a whole in a method for determining the geographical region in which is located a specific host in a wireline Internet network:

*"determining mean vectors of the first sets of information associated with the selected other hosts;
determining Mahalanobis distances of the determined mean vectors from the second sets of information;
selecting one of the determined mean vectors with the shortest Mahalanobis distance from the second sets of information; and
determining the geographical region of the specific host to be the same as the geographical region of the classified other hosts whose respective determined mean vector is the selected one of the determined mean vectors."* (from claim 23)

These limitations, in relation to the corresponding method, are not found in the prior art and are furthermore considered non-obvious in view of the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Art Unit: 2155
